LIST OF D. P. W. SUBJECTS (including Railways).

SHIMOGA DISTRICT.

Subject and Name of Member introducing it.	Summary of discussion.	Reply of Govt.
Subject No. 205. **Bhadra Project and Irrigation in Shimoga District. Mr. Ramachandra Rao of Shikarpur Taluk.**	(*a*) The project for the construction of an anikat across the Bhadra River, for which a plan and estimate are being prepared, may be taken on hand early. (*b*) Irrigation works on a larger scale may be carried out in the Shimoga district.	The project is under consideration in the P. W. D. Referred to Secretary, P. W. D.
Subject No. 206. **Anikat across Uppanirhalla. Mr. Ramachandra Rao of Shikarpur Taluk.**	It is desirable to build an anikat across Uppanirhalla running near Ganjenahalli and Kenchanahalli in the Honnali Taluk.	Will be investigated by the P. W. D.
Subject No. 207. **Restoration of Doddakere tank at Kulihalli. Mr. Ramachandra Rao of Shikarpur Taluk.**	If the tank at Kulihalli village in the Belagutti hobli be restored, a large extent of dry land in about four or five villages in the neighbourhood could be brought under wet cultivation.	Will be investigated by the P. W. D.
Subject No. 208. **Water-supply to Shikarpur town. Mr. Ramachandra Rao of Shikarpur Taluk.**	Great inconvenience is felt for want of drinking water in the town of Shikarpur, the population of which is about 5,000. Arrangements may be made to supply water from the Kumudvati River by means of pipes. The work may cost about Rs. 20,000. Half the amount may be given as a grant and the other half as loan to the Municipality.	This will be investigated by the Sanitary Department in the order of urgency of works of this class required in the State.
Subject No. 209. **Bridge over Tungabhadra near Honnali. Mr. Ramachandra Rao of Shikarpur Taluk.**	A bridge may be constructed across the Tungabhadra River at Honnali as there is much traffic.	This will receive consideration in the P. W D., in connection with the general question of bridge building in the State, for which a programme is being drawn up.
Subject No. 210. **Repairs to anikat across Konihalla stream. Mr. Ramachandra Rao of Shikarpur Taluk.**	(1) The anikat across Konihalla stream running from Sankar Hills irrigates 13 villages in the Shimoga and Gazanur Maganies. If the anikat be improved in two or three places, not only would the lands in the above villages be easily irrigated but water can also be supplied to the town of Shimoga.	Will receive consideration in the P. W. D.

SHIMOGA DISTRICT.—*continued.*

Subject and Name of Member introducing it.	Summary of discussion.	Reply of Govt.
	(2) The restoration of this anikat would irrigate several lands in Kumsi Sub-Taluk as well as in the Honnali Taluk.	Will receive consideration in the P. W. D.
Subject No. 211. Drainage Scheme for Shimoga Town Mr. Ramachandra Rao of Shikarpur Taluk.	Water does not pass freely through the drains in the Shimoga town. This gives rise to offensive smell and thus affects public health. A drainage scheme for the town is therefore important.	The question of funds is under consideration.
Subject No. 212. Water supply for Shimoga town. Mr. Ramachandra Rao of Shikarpur Taluk.	Water may be supplied to the town of Shimoga by means of pipes. It is requested that the project may be taken in hand soon.	The question of providing funds is under consideration.
Subject No. 213. Anikat across the Tunga River. Mr. Ramachandra Rao of Shikarpur Taluk.	If an anikat across the Tunga River between Mudaba and Mandagadde is constructed, it may irrigate lands as far as Honnali. This was represented in previous years. Steps may be taken to have the project investigated.	Referred to the P. W. D.
Subject No 214. Extension of Sogil anikat. Mr. Ramachandra Rao of Shikarpur Taluk.	Representation was made in previous years about the extension of Sogil anikat, but no action has as yet been taken in the matter. Early action is solicited.	Will be investigated in the P. W. D.
Subject No. 215. Improvement of Salur anikat. Mr. Ramachandra Rao of Shikarpur Taluk.	The surplus water of the Salur anikat flows into the Kumudvati River for want of a reservoir. Great hardship is felt in summer for water. The level of the anikat may be raised by two or three feet. If this is not possible, arrangements may be made to store three feet of water near the anikat and Ramanavadu by providing a wooden fixture at the end of November with necessary sluice gates. The Revenue Officers are the best judges of actual requirements in such matters.	Referred to P. W. D. The Deputy Commissioner can easily act in concert with D. P. W. officers.
Subject No. 216. Bridges across the Varda River. Mr. NadigSivappa, Sorab Taluk.	Early orders are requested regarding the construction of bridges across the river Varada both on the Siralkoppa-Gondi road and on the Sor anavasi road.	Referred to P. W. D.
